

COMRADES TO HONOR SHERMAN'S MEMORY

Invited guests: section B and part of section C, officers of the army, in full dress uniform; part of section C, all of section D, and part of section E, 200 veterans of the Army of the Tennessee; part of section B and all of section F, 150 veterans of the Army of the Cumberland.

East Stand Red.

The east stand will have in section A, members of the House of Representatives and special guests; section B, officers of the navy, in dress uniform; section C, 100 veterans of the Army of the Ohio; sections D, E, and F, 300 veterans of the Army of the Potomac.

All persons holding seats in these stands will be seated, it is desired by the monument commission, by 2 o'clock.

Composition of Parade

Under General Young

The parade will consist of two divisions. Lieut. Gen. S. B. M. Young will be chief marshal; Brig. Gen. William H. Carter, chief of staff, and Col. W. P. Hall, adjutant general.

First Division.

Col. Winfield S. Edgerly, Second Cavalry, and commandant at Fort Myer, will be marshal of the First Division, which is to consist of the Second Battalion of Engineers, Thirty-seventh, Forty-fourth, Forty-seventh, and 104th Coast Artillery, Second Squadron of the Second Cavalry, Fourth Field Battery, detachment of Hospital Corps from Fort Myer, battalion of United States marines and two battalions of United States seamen.

Second Division.

Brig. Gen. George H. Harries, of the District National Guard, will be marshal of the Second division, which will consist of the following District Guard organizations: Second Regiment, First Regiment, First Separate Battalion, Signal Corps, Naval Battalion, First Field Battery, and Ambulance Corps. Dress uniform will be worn.

The First division will rendezvous on K Street with the head at Sixteenth Street facing east. The Second division will take rendezvous position on I Street facing east with the head of the division on Sixteenth Street. The column will move at 2:30 o'clock.

Route of Procession

and Official Orders

The route of the procession will be south on Sixteenth Street to H Street; east on H Street to Fifteenth Street; south on Fifteenth Street to Pennsylvania Avenue; west to K Street; south on K Street to the dedication grounds, execute "four, right," march past the reviewing stand in line, leave the ground by executing "four, right," and remain in columns of fours to the reviewing stand of the route, which will be west, then to Executive Avenue, south about 300 yards, then east toward Fifteenth Street, changing direction to the north in time to place the battalions in columns of fours, side by side with five yards interval, facing north and heads resting at the southern border of the dedication grounds.

Battery to Fire Salute.

Cavalry and field artillery, after passing in review, will march toward B Street and will subsequently be massed in rear of the foot troops by the marshal of the First division.

The Fourth Field Battery, U. S. A., after passing in review will move to a position about 300 yards southwest of the statue and will fire a salute of seventeen guns, beginning at the moment of unveiling the statue.

Order of Exercises

After Parade Passes

The unveiling program proper will begin with an invocation by the Rev. Dr. J. Stafford. The Marching Band will play a selection, after which Gen. Grenville M. Dodge, president of the Society of the Army of the Tennessee, and chairman of the Sherman statue commission, will make the introductory address.

Upon the conclusion of General Dodge's remarks, the flags about the statue will be drawn aside by Master William Tecumseh Sherman Thorndyke, nine years old, a grandson of the soldier whose name is commemorated. At the same moment the Marine Band will play "The Star-Spangled Banner."

President to Speak.

President Roosevelt will make an address, and will be followed by David B. Henderson, of Iowa, who will speak in behalf of the Society of the Army of the Tennessee.

HOT BEVERAGES

What to Use in Place of Tea and Coffee.

Many drink tea and coffee against their better judgment, and they require a hot drink at meal times.

They know that by the use of tea and coffee they are doing harm to themselves, but they struggle along and continue to use one or the other. To these people Postum is a great help. For many people find well-brewed Postum superior in flavor to coffee, to say nothing of its great health restoring qualities.

The effect upon those who leave off tea and coffee and take on Postum is very marked. For the old-time coffee addict, such as heart trouble, kidney disease, nervousness, and other ills soon disappear as if by magic. The Postum makes new red blood, and this is shown in the rosy cheeks and clear complexion that replace the blotched and sallow of the coffee drinker. A young school miss of Alva, Okla., says of Postum: "I have used it now for over a year, and my complexion and general health show the change. Before that time I drank tea and coffee, and my complexion was sallow and muddy. I also had almost constant dull headaches. I realized that I must give up tea and coffee, but hung onto them because I felt the need of a hot drink at meal times."

"One day I decided to try it, and I bless the day I did so. I dropped coffee and took up Postum, and now my dull headaches have disappeared, my complexion is fresh and rosy, eyes bright and mind clear. I sleep well now, and I owe it all to using Postum in place of coffee."

The matron of the Young Ladies' Boarding House at the Alva Normal School has adopted Postum as a standard drink, as she is positive the students study and get along better on Postum than on any other drink.

"A lady friend of mine had a son who was a nervous wreck, due, so his doctor said, to coffee. The lady tried Postum, and the young man relished it so he drank it in preference to coffee, and in a few weeks he was like a new person. I know of lots more cases, too. Name given by Postum Co., Battle Creek, Mich."

Look in each package for a copy of the famous little book, "The Road To Wellville."

WILL INQUIRE INTO MAE WOOD'S ABSENCE

Difference of Opinion as to Showing of Record.

THE POSTOFFICE INTERESTED

Officials on the Track of Story About Sick Aunt—Miss Wood After Senator Platt.

As far as can be learned at the Post-office Department no regular official leave of absence has been granted to Mae Wood, the clerk in the department who is said to have gone to New York to interview Senator Platt upon his forthcoming marriage to Mrs. Lillian T. Janeway, of Washington.

Miss Wood is said to be haunting the footsteps of the Senator, accompanied by an attorney and armed with a bunch of tender missives from the aged politician.

Story of Sick Aunt.

One official stated emphatically yesterday that the record showed that Miss Wood was granted leave on Monday without pay to visit an aunt, who was dangerously ill. Another official, through whose hands all the applications for leave must pass, said there had been some mistake and that no leave had been granted.

It is expected, in view of the published statements that Miss Wood is after Senator Platt, that the story of the sick aunt will be investigated by the department, and, should it be found untrue, she may be disciplined.

Frequently With Senator Platt.

Senator Platt frequently saw Miss Wood in the office of the chief clerk to the First Assistant Postmaster General. She would be sent for in the money order division, where she is employed, at \$1.00, and would talk with the Senator, after which he would take her arm and she would lead him to the elevator. Miss Wood frequently spoke of her friendship with the Senator, and is said to have told a number of friends that she was preparing a trousseau for their marriage.

Miss Wood was first in the office of Michael Louis, chief of the supply division, who had her transferred to the free delivery division. There she became involved in difficulties with A. W. Machen, who discharged her. She was reinstated by Postmaster General Payne upon the solicitation of Senator Platt.

DEATH OF INFANT SON OF CUBAN MINISTER

Ramon Felix Antonio Quesada, Born in Washington, June 13, 1903.

Ramon Felix Antonio Quesada, the third child of Senor Gonzales Quesada, the Cuban minister, died at the legation, 1006 Sixteenth Street northwest, shortly after 8 o'clock this morning, after an illness of one week. Arrangements for the funeral have not been made, although it is understood there will be a private funeral from the legation, probably on Friday.

The Cuban minister and his wife visited Kensington, Md., on the 7th instant, and took the child for an outing. While on the car it was seized with a spasm, due to inflammation of the intestines.

Dr. Jones, of Kensington, was hastily summoned. He entertained but slight hope of recovery, and Dr. Ramon Luis Miranda, an eminent Cuban physician of New York, and the child's grandfather, was brought to Washington.

"Let the GOLD DUST TWINS do your work."

GOLD DUST
solves the problem of easy cleaning—does its work almost in the time of other ways.

GENERAL USES FOR GOLD DUST:
scrubbing floors, washing clothes and dishes, cleaning wood-work, removing grease, dirt, and stains, polishing brasswork, cleaning bath room, pipes, etc., and making the floor shine.

GOLD DUST MAKES HAND WATER SOFT.

RICHARD B. CAROWAY TO BE BURIED TODAY

Interment Will Be Made in Glenwood Cemetery—Rev. C. N. Braatz to Officiate.

Richard B. Caroway, whose decomposed body was found above Chain Bridge, where he had shot himself on September 4, will be buried this afternoon at Glenwood Cemetery. The funeral services will be conducted in the chapel of Lee's undertaking establishment, 322 Pennsylvania Avenue, by the Rev. Mr. Carl Herman Braatz, of the Central Union Mission, at 4 o'clock this afternoon, and the body will be interred at Glenwood. The pallbearers will be composed of Mr. Caroway's most intimate friends in the Department of Justice, and in the Agricultural Department. Floral offerings have been sent by his friends in the two departments.

After exchange of telegrams with the relatives of the young man in Iowa, it was decided to bury the remains here instead of sending them to his home.

Richard B. Caroway was about twenty-four years of age, and he came to Washington in December, 1901, to take a position in the Department of Agriculture. Six months later he secured a transfer to the Department of Justice, and up to the time of his disappearance he was employed regularly under Mr. Easby-Smith as stenographer in the pardon office.

NO OFFICIAL TRIALS OF SMOKE CONSUMERS

Commissioners Deny Petition of O. G. Staples.

NOTHING GAINED BY TESTS

Variations in Furnaces Make It Impossible for Any One Device to Be of General Value.

Commissioner Macfarland today approved a recommendation of Health Officer Woodward, denying a petition signed by O. G. Staples and others, that a test be made of at least four of the different and most reputable inventions for the prevention of smoke. In support of his adverse recommendation, Dr. Woodward says:

"The prevention of smoke depends upon the proper application of certain principles governing combustion, which and more or less thoroughly understood. The application of these principles involves three factors. First, the device in which combustion is to take place, including all accessories thereto; second, the material to be burned; and, third, the method and conditions under which the device and material referred to above are manipulated.

Fixing a Standard.

"In order, therefore, for the results of any trial of smoke preventing devices to be of general value, a definite standard would have to be fixed for each of these three factors, and the test would necessarily involve the determination not only of the effectiveness of each smoke preventing device, under these standard conditions, but also the result of every possible, or at least every probable, variation from the accepted standard, individually and in combination. To apply to any individual furnace the data developed as the result of such a test would require a technical knowledge far in excess of that possessed by the average citizen, and those who possess such a technical knowledge as would enable them to make such application, would doubtless be able to accomplish equally satisfactory results without the proposed investigation, through the knowledge which they now possess, and by reference to the technical literature with which they must be more or less familiar.

Variations in Furnaces.

"The petition presented by Messrs. Staples et al. is apparently based on the presumption that there is one smoke-preventing device that is better than all others, and the discovery of which will either prove a panacea for all the supposed hardships now arising out of the attempted abatement of the smoke nuisance, or that failure to find any such device as the result of an official test will prove equally a panacea, in that it will do away with present attempts to prevent the emission of dense and thick, black or gray smoke. As, however, may readily be seen from an examination of the preceding paragraph, that which is the best device in one place may not be the best in another, the prevention of smoke at any particular establishment being a problem depending upon the application of general principles, and the answer to which cannot be premised from the casual observation of the points of similarity and difference between that plant and any other. And the expert knowledge which would bring about the prevention of smoke at any particular plant after the proposed investigation had been made would, it is believed, be able to accomplish the same result without such investigation."

ORDERS FOR PUBLIC WORK.

The Commissioners have issued the following orders:

That gutter basin and connection be constructed on the east side of Seventeenth Place, north of Lowell Street, at an estimated cost of \$75.

That the order of June 22, 1903, directing the macadamizing of the roadway of M Street southeast, from South Capitol to Eleventh Street, be cancelled, it having been decided by the Commissioners to recommend the paving of this portion of M Street in the estimates to Congress for the next fiscal year.

ANGLO-FRENCH TREATY INSURES ARBITRATION

Convention Signed Today by Nations' Representatives.

FOR TERM OF FIVE YEARS

Differences Which Do Not Vitrally Affect Countries to Be Submitted to The Hague.

LONDON, Oct. 14.—Reuters' News Agency announced today that the Anglo-French arbitration treaty had been signed. By it certain judicial differences between the two countries are to be submitted to arbitration. The full text of the document follows:

"The government of the French Republic and the government of the British Majesty, signatories of the convention concluded at The Hague, July 25, 1899, for the peaceful settlement of international disputes, considering that by Article XIX of that treaty the high contracting parties reserve to themselves the right of concluding an agreement with the view of having recourse to arbitration in all cases which they shall consider it possible to submit thereto, have authorized the undersigned to agree to the following provisions:

"Article 1. Differences of a judicial order, or such as relate to the interpretation of treaties existing between the two contracting parties, which may arise between them and which it may not be possible to settle by means of diplomatic methods, shall be submitted to the permanent court of arbitration established in The Hague by the convention of July 25, 1899, on condition, however, that they do not involve either the vital interests or the independence or honor of the two contracting parties, and do not affect the interests of a third power.

"Article 2. In each particular case the high contracting parties, before addressing themselves to the permanent court of arbitration, shall sign a special arbitration bond, setting forth clearly the subject under dispute, the extent of the powers of the arbitrators, and the details to be observed as regards the constitution of the tribunal and the procedure.

"Article 3. The present arrangement is concluded for a term of five years from the date of signature.

"CAMBON."
"LANDSDOWNE."

WOMEN LAWYERS PRESENTED TO COURT OF APPEALS

Bar Association Adopts Rule on Admission to Membership.

Among the members of the bar admitted to practice today before the Court of Appeals was the District of Columbia Bar Association, Florence A. Colford, Ethel M. Colford, and Florence B. Clark. The young women were presented to the court by Attorney Ellen Spencer Mussey. Thirteen others who were recently admitted to practice were presented to the court by Attorney Walter C. Clephane.

DIED.

GATEWOOD.—On Tuesday, October 13, 1903, at 6 a.m., IDA GATEWOOD, aged thirty-eight, the widow of James Gatewood, after a painful illness.

No mother dear to guide us
With love sincere and true;
No mother to care us,
As she was wont to do.
The dear one now is sleeping;
No care is on her brow;
Oh, blame us not for weeping—
We have no mother now.

Rest on, dear mother; thy labor is o'er;
Thy willing hands will toil no more.
A faithful mother, both true and kind—
A true mother I could not find.
May she rest in peace.
—By Her Loving Mother and Children.

Funeral will take place from her late residence, 124 K Street southeast, on Friday, October 16, at 2 o'clock. Relatives and friends are respectfully invited to attend. It

Dr. Shoop's Rheumatic Cure

Costs Nothing If It Fails.

Any honest person who suffers from Rheumatism is welcome to this offer. For years I searched everywhere to find a specific for Rheumatism. For nearly twenty years I worked to this end. At last, in Germany, my search was rewarded. I found a costly chemical that did not disappoint me as other Rheumatic prescriptions had disappointed physicians everywhere.

I do not mean that Dr. Shoop's Rheumatic Cure can turn heavy joints into lead again. That is impossible. But it will drive from the blood the poison that causes pain and swelling, and then that is the end of Rheumatism. I know this so well that I will furnish for a full month my Rheumatic Cure on trial. I cannot cure all cases within a month. It would be unreasonable to expect that. But most cases will yield within thirty days. This trial is free. You may convince you that Dr. Shoop's Rheumatic Cure is a power against Rheumatism—a potent force against disease that is irresistible.

My offer is made to convince you of my faith. My faith is but the outcome of experience—of actual knowledge. I KNOW what it can do. And I know this so well that I will furnish my remedy on a trial, for I can't harm you. Simply write me a postal for my book on Rheumatism. I will then arrange with a druggist in your vicinity so that you can secure six bottles of Dr. Shoop's Rheumatic Cure to make the test. You may take it a full month on trial. If it succeeds the cost to you is \$5.00. If it fails the loss is mine and mine alone. This trial is left entirely to you. I mean that exactly. If you say the trial is not satisfactory, I don't expect a penny from you.

I have no samples. Any mere sample that can affect chronic Rheumatism must be dragged to the verge of danger. I use no such drugs. It is dangerous to take them. You must get the disease out of the blood. My remedy does that even in the most difficult, obstinate cases. It has cured the oldest cases that I ever met, and in all of my experience, in all of my 2,000 tests, I never found another remedy that would cure one chronic case in ten.

Write me and I will send you the book. Try my remedy for a trial, for I can't harm you, anyway. If it fails, the loss is mine. Address Dr. Shoop, Box 766, Racine, Wis. Mild cases, not chronic, are often cured by one or two bottles. At all druggists.
